Hull Builder's Risk

IMU's Builder's Risk policy is an Agreed Value contract that's usually rated at the completed contract price, including the value of materials and equipment destined for the vessel. It also provides an escalation option to adjust the agreed value of the policy.

Coverage includes:

- ▶ All risks of physical loss or damage to the vessel
- ▶ Any plans, staging, molds or scaffolding, if included in the insured value
- ▶ Launching and trial trips within 250 miles of the named construction location; policy can be endorsed to cover delivery trips
- ▶ Collision and Protection, and Indemnity coverage for the insured against liability arising during the currency of the policy

As noted above, "commercial hull" pertains to coastwise, river and brown-water vessels. IMU handles oceangoing blue-water vessels as a subscriber to the American Hull Insurance Syndicate (AHIS).
